## So you're ready to take action against climate change... Human combustion of fossil fuels is heating the atmosphere and disrupting natural systems everywhere, jeopardizing human life on earth. We have to Do you know the NO end the fossil fuel economy immediately, despite strong opposition. basics? Read more: 9 Questions About Climate Change You Were Too Embarrassed To Ask Every State's Temperature Trend for Every Season Yes, but I'm The Ultimate Climate Change FAQ very, very sad. That is a sane and natural response to a horrible situation. Take time and feel what you feel. Be aware, research and experience show that the best treatment for climate despair is climate action. Read more at the Climate Psychology Alliance Yes, but I hate/suck at/am scared of activism. Expand your concept of activism to include your skills and pleasures: teaching, hosting, writing, gardening, art-making, arguing, performing, communications, etc. Yes, but it's daunting and I don't know where to start. Also, there is work to do that nobody likes, and we all have to take turns. So let's be grownups about it. Here's one way to think about it: Are you a YES or a NO kind of person? YES NO Do you want to build more... Do you want to stop... Bad **People** Community Bad Renewables? **Bad Laws?** Power? Resilience? Money? Infrastructure? Communicate. Show up.
